TDA ENTERPRISE

A non-profit 501(c)3 organization

Let us help your company develop the keys
to an effective EHS program!

ABOUT TDA ENTERPRISE

Located in Middle Tennessee, TDA Enterprise provides professional EHS consultation and charitable outreach services for small businesses, communities and corporations nationwide. TDA Enterprise is a subsidiary of a federal recognized charitable organization. We support transitioning citizens through corporate partnerships and community alliances.

Over 100 years of experience delivering training, process evaluations, program development and outreach solutions for organizations and communities.

Safe-Key Program Objective

Safe-Key provides a turnkey approach toward effective safety program management. Through our Safe-Key program, TDA Enterprise will evaluate, develop and implement the required EHS programs based on existing work practices and identified company hazards.

Safe-Key Program Credibility

Our program facilitators are respected industry professionals with years of corporate, industry and government experience. Company outreach is in accordance with federal and state OSHA regulations, EPA, as well as industry best practices.

Safe-Key Program Focus

Safe-Key places ownership of the company EHS program in the hands of its employees providing the vital tools to successfully maintain their own personal health and safety. Employees become **EMPOWERED** when they are truly **ENGAGED** and take personal **OWNERSHIP** of their work practices.

SAFE-KEY PROGRAM

There were 8.7 billion occupational incidents reported in 2015 with 2.9 million resulting in employee injuries and illnesses. Over 4800 work related fatalities were reported in 2015.
